RE: Judicial and Professional Misconduct – 96DR1112
District Magistrate Jayne Candea-Ramsey
Former District Magistrate John Paul Lyle
Christina Eigel, Esq.
Tracy Rumans, Esq.

Dear Chief Judge Samelson:

The attached Notice of Appeal contains a summary of the misconduct that is ongoing in the handling of my case in the N/CS Division. Despite my procedural misstep, the clerk accepted the NOA and instructed me to file the personal records with the Court of Appeals. The appeal is not necessary due to the gross judicial and professional misconduct that has occurred in my case.

I have attached the letter drafted prior to receiving District Magistrate Candea-Ramsey's orders in the mail. Specific comments about falsifying court records can be found beginning at Affidavit Number 133 and were added in response to the orders received in the mail on Saturday, March 27. The Affidavit was one of the personal records I presented with the NOA. Numbers 134-139 were added. The other document not accepted by the clerk was the Continued Objection to Proposed Amended Order. It is discussed in Numbers 119-121 and 138. Please find it attached as well.

I am hoping once again to see someone take action. I have made it a point to communicate with everyone that has heard this before. You have a criminal "team" running a courtroom. And you had a criminal sitting in it before. I want what belongs to me back, and I want my driver's license reinstated without any cost to me immediately. I have struggled with this whole situation alone for far too long. I can be reached at (719) 640-2155.

Sincerely,

Robert Wayne Johnson
